Soldaki pencereden Firewall tklay n ve sonra oradan Virtual Server t klay n.

3COM	OfficeConnect® ADSL Wireless 11g Firewall Router
Setup Wiland LAN Settings Wireless Settings Internet Sattings Routing Firewall Special Applications Virtual Servers Client IP Filters MAC Address Filtering DMZ Advanced System Tools Status and Logs	Firewall You'r Router is aquippes with a firewall that will protect your network from a wide array of common hacker attacks including Ping of Devalt (POO) and Dernar of Service (DoB) attacks. You can turn the firewall formed for the order. Turning off the firewall protection will not have your network completely vulnerable to hacker attacks, but it is recommended that you turn the firewall on whenever possible. Enable Firewall Rinewal Enable / Disable @ Enable @ Disable Note Apply Cancel

Aşağıdaki Virtual Server ekranı çıkacaktır. LAN IP olarak PCnizin IP nosunu girin (bu örnekte 192.168.1.2) diğerlerini aşağıdaki gibi doldurun.

3com	OfficeConnect" ADSL Wireless 11g Firewall Router Virtual Servers This function will allow you to route external (Internet) calls for services such as a web server (sort 80), FTD server (Port 21), or other applications through your Router to your internal network.
